4) There does not seem to be any parity between the present proposal & that raised in July file 118-08. Field service conditions had not risen for consideration when the order of 23rd April 1912 was issued.

5) The present proposal is apparently to compulsorily retire such officers & men of the Regt in the field as have put in 25 years service in the interest of the efficiency of the Regiment.

Except that premature retirements tend to increase of pension charges there is no financial objection to the course proposed - if the exigencies of field requirements necessitate these retirements.

It may be observed from the correspondence in the file that the proposals of the Chief Commandant were being constantly modified in regard to retirement of members of the I. S. Lancers apparently owing to war conditions.

Briefly it is required to retire 5 officers & men in the field as have just in 25 years of service - But on further enquiry from the Administrative Branch & subsequent consultation with the Inspecting officer - the Chief Commandant now proposes that the numbers now recommended may be given whatever pensions they may be entitled to.

It is however not clear whether the retirements now proposed are in regard to the 5 men in the Depot referred to in his letter of & the Depot or a general permission to Depot on the line suggested

In other words the proposal amounts to saying that 25 years' service in the I.S. Regt will generally render the Sewar unfit for further efficient service. If so, it seems but fair that the maximum pension whatever it may be should be granted to them discharged after 25 years' service. To discharge such men without a Medical Certificate only on a proportionate pension as recommended by the Brig Comdt is contravention

present- war the strength of the Regt- will have to be altered and to show some recognition of the services of the men in the field their pay will have to be increased. The strength of the Regt- has abnormally been increased on account of war and it is likely to take a couple of years after the return of the Regt- from the field to the strength being reduced to Normal condition. Hence the extra cost of the proposed revision will amount to Rs 22 35/- p.m (Nil- Rs 1310/-) or Rs 27000/- per annum at present as shown below:-

2) As regards the question of the increase of pay it may be noted that in order to bring the salary of the members of the Regt into line with that of the British Indian Cavalry the members of the Regt at the front have all been granted field service allowances on a liberal scale and those in the Depot are given ration & fuel allowances at Rs 5/- each p.m. till the war ends. (4) In the above circumstances it seems that this is not the proper time to consider the question of any permanent revision.

(5) If, however, the question is to be taken up now it is for consideration whether the present Silledary system should continue.

(6) The past experience of the working shows that the system is neither beneficial to the men nor to Govt. It has complicated the accounts of the Regt to a large extent and the result is that it is not possible for any one to say without some effort whether the amounts due to the men have been paid regularly and whether the dues to Govt have been properly recovered. The men are not sure of getting what they are expected to get as their net pay and the Govt has not the satisfaction of having saved any expenditure. The system has given much room for abuses.

Sir,

With reference to your letter No.G.14030/Mily.73-16-8 dated 18th April 1917, I have the honor to state that pending the submission of further proposals for the revision of the present scale of pensions, the members of the Imperial Service Lancers now recommended for retirement may be given whatever pensions they are entitled to under the existing rules according to the length of their service. Concessions in the case of those who have rendered --- special se-rvice in the Field may be shown independently.

I have the honor to be,
Sir,
Your most obedient servant,

J Desaraj

To

Chief Secretary to Govt of H.H.the Maharaja

of Mysore, Bangalore.

Sir,

Referring to Mr.B.Ramaswamiah's D.O.letter No.G.3099 dated 4th September 1917, I have the honor to forward herewith a fresh set of pension rules for the Mysore Imperial Service Lancers drawn up in consultation with the Inspecting Officer and on the same lines as those sanctioned for the British Indian Army in the I.A.Orders No.51 of 8th January 1917 and 141 of 12th February 1917.

2. The rates of pensions proposed for the several ranks in the fresh rules are the same as those allowed to similar ranks in the British Indian Army and are slightly in excess of the existing rates. It is very necessary to get the Mysore Imperial Service Lancers into line with the British Indian Cavalry as regards pay and pensions and to grant the increased rates of pensions now proposed it is quite desirable that the scale of pay also should be made equal to that in the Indian Army. I therefore enclose herein two comparative statements one for pay and another for pension showing the revised scale now sanctioned for the British Indian Army as the existing and the proposed scales for the Mysore Imperial Servic

Lancers. The revised rates of pay for the Mysore Imperial Service Lancers are the same as those now allowed to similar ranks in the British Indian Army and the extra expenditure that will be incurred in granting these revised rates of pay to the normal peace strength of the Regimont will amount to R$.1310/- per mensem as shown in the margin. I therefore strongly --- recommend that my --- proposals for the grant of increased rates of pay and the issue of revised rules for pensions be sanctioned simultaneously at an early date.
